About me

I am from Brașov and I started this journey with the film "The Father Who Moves Mountains" in 2021. A year later I appeared in a TV series, and 2023 was my busiest year: a commercial aired nationwide and the Antena 1 show "Are You Smarter Than a 5th Grader?".

I love working in front of the camera and I look forward to the next project, with seriousness, courage and plenty of commitment.

Cosmin is a minor; all discussions about projects go through a parent.
